

How To Create An Online Account

You can create a **my Social Security** account to access your *Social Security Statement* to check your earnings and get your benefit estimates.

If you receive benefits, you also can:

- get your benefit verification letter;
- change your address and phone number; and
- start or change your direct deposit.

Even if you do not currently receive benefits, you can get a benefit verification letter stating that you:

- never received Social Security benefits, Supplemental Security Income (SSI) or Medicare; or
- received benefits in the past, but do not currently receive them (The letter will include the date your benefits stopped and how much you received that year.); or
- applied for benefits but haven't received an answer yet.

There is no fee to create a **my Social Security** account, but you must have an email address. See the following section, if you do not have a personal email account.

Email account set up

There are many options available to set up an email address and it can be done in as little as five minutes. Each email provider has its own criteria for setting up an account and you must accept the provider's terms of use agreement. Some examples of free email providers include:

AOL: aolmail.com

Gmail: gmail.com

iCloud Mail (Apple): icloud.com

Outlook: outlook.com

Yahoo: yahoo.com

**This is not a complete list of email providers. Social Security is not endorsing any of these particular email account provider(s), as you may use other email account providers as appropriate.*

NOTE: *Even if you do not use email on the computer, if you have a smart phone it is likely that you already have an email account. Contact your cell phone service provider to find out.*
